Carmel Pine Cone

Saturday, January 30, 1926. CARMEL-BY-THE-SEA, CALIFORNIA Vol. XI, No. 52.

Carmel Mayor is Grand Jury Foreman

Last Monday in Superior Judge Fred A. Treat's court in Salinas the Monterey County Grand Jury for 1926 was selected.

The body is composed of eighteen men and one woman. Mayor William T. Kibbler of this city was appointed foreman and Philip George of Salinas secretary.

Carmelites on the jury, in addition to W. T. Kibbler, are Mrs. Katheryn J. Overstreet and Ray C. DeYoe.

This is the third time in his public career that Mr. Kibbler has been grand jury foreman. Once before he headed that body in this county, and in 1900 he acted in a like capacity in San Francisco.

The committees of the jury are as follows:

County Jail, Court House, County Property—Rev. J. A. Tancock, Chairman, E. J. Leach, Wm. F. Schmidt, John Armstrong (all of Salinas) and John Breschini, Sr., (of Blanco).

County Officials—C. J. Fulle, Chairman (Salinas), P. K. Joy (Spreckles), Rev. C. E. Irons (Pacific Grove), Joseph Rosenberg (San Ardo), and Mrs. Katheryn J. Overstreet (Carmel).

County Poor House and Farm—J. M. Hughes, Chairman, C. J. Fulle (Salinas), J. Juri, Sr., (Gonzales), G. S. Dedini (King City), and J. W. Sargent (Monterey).

Roads and Bridges—Gilbert Andersen, Chairman (Chular), John Armstrong (Salinas), Joseph Rosenberg (San Ardo), John Breschini, Sr., (Blanco), and R. C. DeYoe (Carmel).

Public Welfare and Morals—Rev. C. E. Irons, Chairman (Pacific Grove), Rev. J. A. Tancock (Salinas), John Armstrong (Salinas), G. S. Dedini (King City) and Mrs. Katheryn J. Overstreet (Carmel).

Meetings will be held at the call of the foreman.

THE LAST DAY TO OBTAIN AUTO LICENSES

Today is the deadline for motorists to secure their 1926 license plates without paying a double registration fee. The attention of motorists is called to the fact that 100 per cent penalties will be assessed after January 30.

The Division of Motor Vehicles is given no alternative under the law, the motor association announces, in urging motorists who have not yet applied for their 1926 plates to do so at once and save themselves the expense of a double registration fee.

COLLEGE WOMEN'S CLUB

The next meeting of the College Women's Club of Carmel will be held at Miss Alice McChesney's home on Fourth ave. and Camino Real, 3 to 5 p.m., Tuesday, February 2.

Coming Events

Friday and Saturday, Feb. 12-13—Geo. Ball players in "The Torch Bearers." Arts and Crafts Theater.

Saturday, Feb. 13— Current Review lecture by Aline Barett Greenwood. Pine Inn.

Feb. 19 to 22—"Dulcy." Golden Bough Players.

Saturday, Feb. 27—University of California Glee Club. Golden Bough.

School Dedication This Afternoon

The program for the exercsises marking the dedication of Carmel's magnificent new public school building, which takes place at three o'clock this afternoon, is announced as follows:

Flag-raising by pupils of school.

Singing of "The Star Spangled Banner" by pupils and visitors.

Adress by Professor Samuel S. Seward of the English Department of Stanford University.

Address by James G. Force, Superintendent of Schools of Monterey County.

A bugler from the Eleventh Cavalry at Monterey Presidio has been detailed to lead the singing.

Singing of "America" by the pupils.

The elements permitting, all the exercises will be held outdoors.

A cordial invitation is extended to former pupils, teachers, trustees and Carmel residents generally, to be present.

MANY HEAR OLD-TIME COMIC OPERA

That interest in the semi-comic operas of another generation is still keen has been fully demonstrated by the fact that more than six hundred people attended the three performances of "The Chimes of Normandy"—two in the Theatre of the Golden Bough and one in the auditorium of the Monterey Union High School.

It is not the purpose of this article to be critical. Amateur charitable dramatic affairs are not in the same category as professional efforts. It is sufficient to say that the majority of those who purchased tickets were satisfied that John R. Pavilla, his cast, his chorus and Fenton Foster's orchestra gave them their money's worth in song, in music, and in scene.

It was a tremendous task—this revival of an older form of public entertainment— and everyone connected with the affair, from promoter to producer, is to be thanked.

It is possible that before long announcement will be made that the Peninsula Opera Company will present that popular Gilbert & Sullivan output, "Pinafore."

FREE EXPERIMENTAL SEEDS

The United States Government is making experiments in the planting of Peruvian alfalfa seed, Spur feterita seed, Virginia soybeans, and Sudan grass seed. It is the desire of the Government to get these seeds into the hands of those who will plant them according to instructions and make a report as to the adaptability to the soil where planted.

Anyone desirous of procuring some of these seeds can obtain them by writing to Congressman Arthur M. Free, House of Representatives, Washington, D. C.

Mr. and Mrs. Ayers J. du Bois of Hollywood, have been enjoying their honeymoon in Carmel at "The Lark" on Carmelo near Seventh. Mr. du Bois is a realtor of Hollywood. Mrs. du Bois was a former resident of New York City but acknowledges that Carmel has won her and looks forward to returning.

Candidate for Governor Boosts Coast Highway

The candidacy of Judge Rex B. Goodcell for the Republican nomination for Governor received a big boost on the Monterey Peninsula and in the nine coast counties by the candidate's emphatic endorsement of the proposal to complete the Carmel-San Simeon highway.

The announcement followed an organization meeting of the Carmel-San Simeon Coast Highway Association held in Monterey Wednesday night. The Judge called at the office of City Manager R. M. Dorton and expressed himself as follows:

"The tourist crop is the most important in California. The Carmel-San Simeon highway is important because it is an all-year-'round highway, cool in summer and warm in winter. The golf ball is of great value to the state."

Progress in the construction of this highway from Carmel to San Simeon in San Luis Obispo county is convincingly and interestingly set forth in a map and report recently prepared by County Engineer H. F. Cozzens.

Nearly two million dollars has already been spent on the project. No official estimate has as yet been made as to the cost of completing the thirty-eight miles south of Slate's.

The map, which was submitted to R. M. Dorton, chairman of a Peninsula citizen's committee, shows that the highway is completed except for 38 miles between Slate's Hot Springs, south of Partington canyon, and a point about thirteen miles north of San Simeon. When this link is completed, the highway will be passable from San Francisco to Los Angeles.

Fifty-one miles of highway is now completed from San Simeon to Slate's Hot Springs. The final thirteen miles of this section, the part constructed under the Pollak contract through Partington's canyon, cost $800,000.

The thirteen miles north of San Simeon was constructed under the Blake and Henery contract at an expenditure of $516,000, according to Cozzens' figures, while the section of the highway from San Luis Obispo to San Simeon was constructed by San Luis Obispo county funds at a cost of $850,000.

The total spent on these three sections of the highway is therefore $1,966,000.

SAN CARLOS HIGHWAY MAY BE WIDENED

The regular monthly meeting of the Carmel Board of Trustees will be held next Monday evening. In addition to routine business and such other business as may develop, the most important matter to be discussed and planned for is the proposal of Mayor W. T. Kibbler to take advantage of a law enacted by the last Legislature for the care and construction of highways running through cities the size of Carmel.

Owing to the crowded traffic on San Carlos Highway it has for some time been apparent that the roadway would have to be widened to insure safe and comfortable driving, and this new law provides for just this kind of work.

The county engineer and the state engineer are said to be in favor of starting the necessary proceedings.

Hope for Improved Drama in the "Sticks"

Jesse Lynch Williams, playwright and author, brother of Mrs. Susan Porter, sometimes a Carmelite, was recently awarded the 1926 fellowship in creative arts at the University of Michigan. The fellowship carries a cash award of $5000.

Williams has written quite a number of successful dramas, among them, "Why Marry?" "Why Not?" and "The Stolen Story," the latter a newspaper story.

For the commercial theatre Williams has little use, nor does he subscribe to the producers' creed, "Give the public what it wants."

Says he: "That's not the way to achieve better things. It is a mistake for the playwright to give the public what it wants. I believe we ought to make the public want what we have to give. We must create, not merely art, as it is called, but our audiences who are capable of appreciating it. That in my opinion is exactly what the neighborhood theaters are endeavoring to do.

"Not Broadway, but the 'sticks' is the hope of art in the drama. Art is right enough in its way, but I am afraid that way lies far from Broadway.

"In the drama there is a cold dollars and cents proposition. Every contract contains a stop clause, which means when your play fails to net $8,000 a week at a popular theater, out you go and somebody else moves in.

"That's why I believe the Little Theater is going to have a profound influence on the future of the American stage. There financial success is of but little moment, and new things may be tried out without fear of ruin.

"Self-expression the only aim of art? Nonsense! What has self to do with the matter? You are quite unimportant in the scheme of things. It is what you have to say and in what you can interest people that really matters."

Jesse Lynch Williams is a distinguished man of letters, and the foregoing, coming from him, is indeed encouraging to those who are working toward a better drama.

ANDERSEN-PAVILLA

Christian H. Andersen, formerly a newspaper advertising man, and Miss Doris E. Pavilla, daughter of Mr. and Mrs. John R. Pavilla of Pacific Grove, were married in San Luis Obispo on December 21. Only a few intimate friends knew of the elopement. The couple are making their home in Carmel. They honeymooned in Los Angeles.

Mrs. Andersen is a singer and actress. Recently she has been practicing nursing. The groom is now employed by Carmel Thermotite Inc., in the capacity of sales manager.

With next Saturday's issue of the Pine Cone, Volume No. 12 begins. Or in other words, the Pine Cone enters upon its twelfth year of publication. Increasing circulation and liberal advertising patronage has enabled the paper to keep pace with the growth of Carmel and vicinity. And as the city continues to grow the Pine Cone will endeavor to keep a step or two ahead. This means more circulation and a more valuable advertising medium.

SESQUICENTENNIAL HISTORY SKETCHES

The one hundred and fiftieth anniversary of the adoption of the Declaration of Independence will be observed by the Sesquicentennial International Exposition, which opens at Philadelphia, June 1, 1926.

THE DECLARATION CHAMBER

The Declaration Chamber in Independence Hall in Philadelphia will be a shrine of historical interest for visitors to the Sesquicentennial International Exposition, opening June 1, 1926, because of the fact that a series of tableaux depicting historical events of one hundred and fifty years ago will be given within the actual confines of the room.

The Chamber, an excellent example of English Renaissance architecture of the Georgian period, retains the original interior panelling and decorations, some of which have been removed. A portrait of George Washington hangs over the entrance door and was painted from life during the war by James Peale. The furniture is the iriginal of that used by the Congress from 1775 to 1781. The silver inkstand used in signing the Declaration is a precious exhibit in the Chamber.

The Assembly of the Province of Pennsylvania in October, 1736, was the first group to occupy the Chamber. Its use by the Assembly continued for a period of 39 years, upto the Revolution, when the Continental Congress convened there.

On July 4, 1776, the Declaration of Independence was passed in the Chamber. On that day the document was read before the members.

Notable events that have taken place in the Declaration Chamber have been numerous. Washington accepted his appointment as General and Commander-in-Chief of the Continental Army on June 16, 1775. One June 14, 1777, Congress adopted the American flag. The Federal Convention convened to frame a Constitution. The bodies of John Quincy Adams, Henry Clay and Abraham Lincoln lay in state there.

Reproduction of some of these events will be a part of the pageantry features planned during the Exposition.

"THE SONG AND DANCE MAN"

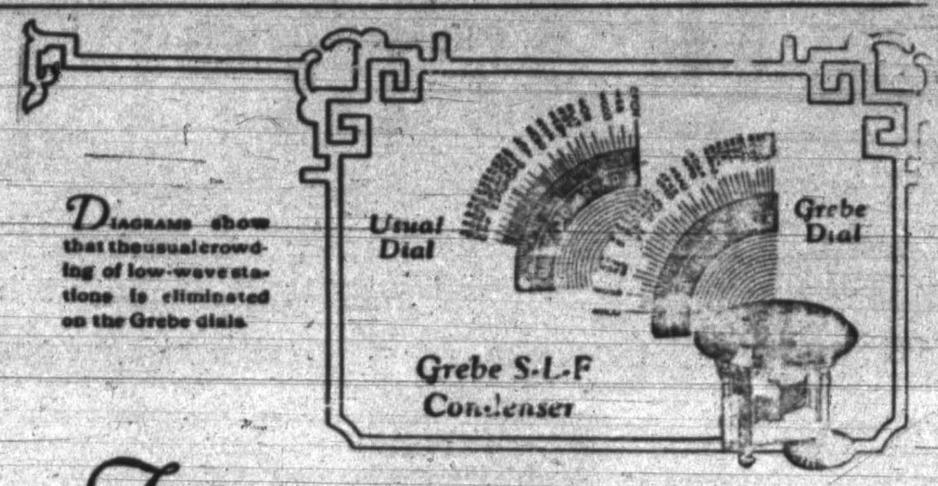
With Henry Duffy as the star, "The Song and Dance Man," George M. Cohan's latest comedy success, permeated with laughts and containing a dozen interesting characters, comes to the California Theatre Thursday. Duffy is bringing this production direct from a long run at the Alcazar Theatre, San Francisco. It was selected by him as the medium for his return to the stage after a five months' absence. Every one of the San Francisco critics declared that it is his greatest success. The supporting company has been described as exceedingly well balanced, with everyone of the dozen characters in the hands of an experienced player. Indeed, the production, we are told, would do credit to Broadway. Henry Duffy has come to be known as one of the greatest producers in the west and this will be the first tour he has made in four years. Local theatregoers are apparently assured of a great treat when the curtain rises.

BOY SCOUT NEWS

At the last meeting of the Boy Scouts, Mr. Staniford showed them bandaging. Afterwards everybody adjourned to the beach and played "Chinese Jump" for an hour.

The Scoutmaster announced a supper hike for next Saturday, the purpose being to pass firebuilding, cooking and tracking tests.

Illustrated edition of CARMEL is limited to 500 numbered copies. Blue silk fastened into gray boards. Ready today. $1.50 postpaid.—Adv.



Diagrams show that the usual crowding of low-wave stations is eliminated on the Grebe dials
Usual Dial
Grebe Dial
Grebe S-L-F Condenser

From the Jumble of Radio Programs

the Synchrophase easily picks the one you want. This quick and accurate tuning is made possible by the Grebe S-L-F Condensers. They distribute low and high-wave stations so that they have equal spacing on the dials. This eliminates the usual crowding of low-wave stations onto lower dial numbers which makes almost microscopic dial adjustment necessary.

Other exclusive developments that make Grebe reception so superior are:

Binocular Coils, Low-Wave Extension Circuits, Flexible Unit Control, "Colortone" and Volume Control

Ask for a demonstration of them all, then compare

BOYS' CLUB

The Boys' Club is fortunate in having so many friends, who frequently provide the wherewithal for a Red Letter evening.

On January 20 there was a New Year's party, with congratulations said with ice cream, cake and candy by Maro Hammond, one of our boys who is now in Gloucester, Mass. He wished to express his thanks for the many good times he had in the Club.

The evening ended with a cracker relay race.

AND LET THE RATS PREVAIL

Carmel, Jan. 29, 1926.

Editor, Pine Cone:

Did you know or were you aware of why the tree-beetle bug is so active? Birds—once on a time—were plentiful in Carmel and tree pests were not so prolific nor had they quite such an appetite for Carmel pines.

A hungry tribe of cats have eaten the birds and reduced their numbers to such an extent that they, the birds, do not keep the tree-destroying pests down.

Kill off three-fourts of the Carmel cats and you have the solution.

Let the birds return and multiply unmolested by cats. In time our trees will grow despite the insects.

Very truly,
BY HECK.

STOLEN CAR RECOVERED

A. K. Molendyk is happy again. One day this week his auto was stolen in Salinas. He was without his means of transportation for one day only. Through the vigilance of Deputy Sheriff D. F. McKinnon, the car was recovered, and the four Negroes who went joyriding with Pasadena as their destination were halted at King City. They are now thinking it over at the county bastile.

NEW ELECTRIC SHOP

Carl S. Rohr and wife, who have been spending their vacation here, have decided to settle permanently in Carmel. Mr. Rohr has been associated with Stone & Webster, Inc., at Seattle, as their assistant electrical engineer. He will open up a modern electrical store on Ocean avenue about Friday, February 5th, and plans to handle electrical appliances, radio and do electrical contracting.

Come and tell us your needs. Come and register so that your friends can find you. Carmel Service Bureau, So. side Ocean avenue, between San Carlos and Dolores. Phones: 182 and 123J.
—Adv.

BETTER INTER-CITY SERVICE

As a result of increasing demands for telephone service between Monterey and Salinas, indicative of growing business and social relations between these two cities, the Pacific Telephone and Telegraph Company is preparing to engage in a project which will cost approximately $6,000.

R. P. Sexton, Peninsula manager, says this project, when completed, will result in three new long distance lines between these two cities and involves the stringing of over 76 miles of copper wire. The work will be completed in May. "This work," continues Sexton, "will satisfy the demands for long distance service between these cities for some time in the future as predicted by the engineers of this company and is indicative of greater future business relations."

Dr. Noel Porter, Archdeacon of the Diocese (Episcopal) of California, will preach at All Saints Church on Sunday, February 7th, at 10 a. m.

ART NOTES

PRIZES FOR POSTERS

Prizes valued at $1000 are being offered for poster designs in an annual poster competition and exhibition under the auspices of the Califorina Art Institute, in Los Angeles. There are to be fifteen prizes in all, the first one to be a year's scholarship in the Art Institute.

The posters are to be done in poster water colors and pictorially interpret the subject of better homes. The competition is open to all art students, amateurs and those who are regularly in attendance in the grade schools, the high schools, colleges, universities and private schools. All entries must be in on or before 5 p.m., March 1, 1926, and must be in the hands of the Competition Committee of the California Art Institute. Each individual may submit not more than three designs. Designs must be executed in not more than seven colors. Each poster shall be rendered on mat or illustration board and shall be 19x28 inches in size. It is preferred that no poster be framed. You may include at your discretion an appropriate monogram or a hand-lettered or type set caption as follows: "Better Homes."

HISTORY IN SCULPTURE

The story of American freedom will be told in terms of art and architecture at the Sesquicentennial International Exposition in Philadelphia, beginning next June 1, in connection with the plan to decorate the great series of courts and stairways in the center of the exposition grounds. With the appointment of Charles E. Tefft as director of sculpture for the exposition the plan has been made known.

The artistic side of the exposition has been given added impetus by the appointment of John E. D. Trask to the post of Chief of the Department of Fine Arts. When the various branches of the arts are assembled the Sesquicentennial will find itself the sponsor of the greatest display of fine arts ever brought together, according to Mr. Trask. It will even surpass that of the San Francisco Exposition, where Mr. Trask also filled the post of Director of Fine Arts. There, more than 11,000 exhibits were catalogued, the largest number ever assembled at any exposition.

The great outdoor exhibition of sculpture will be a striking feature of the Sesquicentennial. It is planned on a large scale. Situated between two of the exhibition palaces a tall Tower of Liberty will stretch towards the sky. From its summit, more than 200 feet high, a brilliant beacon will burn—the Light of Independence. This great light will illuminate, at night, the statues of the signers of the Declaration of Independence grouped below in a plaza to be called the Forum of the Founders.

From the Forum of the Founders a long Stairway of Nations will descend to a point nearly 200 feet distant, where it will end among a maze of lagoons surrounded by great architectural columns to be known at the Colonnade of the States.

The whole inclosure, flanked by the walls of the exhibition palaces tinted in soft pastel shades, will be embellished by a number of pieces of statuary conceived by the foremost American sculptors. The motive running through the entire display will be an unbroken sequence of America's progress, historically and industrially, from the founding of the Republic to the present day. This whole project will be under the direction of Mr. Tefft.

Mr. Trask, upon his appointment, immediately has taken steps to bring together the elements necessary for a general collection of the most representative examples of painting possible to procure. Plans are being considered for an adequate building to house the exhibits. They will probably be made in three general divisions, an American section, an international section and a third section presenting the contribution of Philadelphia and Pennsylvania to the development of the arts during the last 150 years.

National advisory committees, committees on selection, installation and appointment of juries, are soon to be named. The first regional committee, that of Philadelphia, has already been chosen. It consists of Edward W. Redfield, chairman; Charles Grafly, George Harding, Adolphe Borie and Thornton Oakley.

NOTICE OF SELECTION UNDER SECTIONS 2275 AND 2276, U. S. REVISED STATUTES

As Amended by Act of Congress, February 28, 1891

ITEMS OF INTEREST

Edward H. Tickle of Carmel Highlands has been elected vice-president of the Monterey Peninsula Realty Board.

Carmel and Pebble Beach have been selected as "location" for the filming of a story called "Sandy." Miss Madge Bellamy is the star. "Shooting" the scenes will begin shortly.
to assign numbers.

The cast of "The Torchbearers," to be produced in the Arts and Crafts Theatre by George M. Ball on February 12 and 13, got together last Monday night for the first rehearsal.

As the result of an auto accident near Gilroy, Mrs. Martha Scholes is in a San Francisco hospital with a broken collar-bone, shoulder and elbow. Her friends are hoping for a speedy recovery.

Illustrated edition of CARMEL is limited to 500 numbered copies. Blue silk fastened into gray boards. Ready today. $1.50 postpaid.—Adv.

James May Locate Here

Will James, the well known author-artist, arrived in Carmel last Saturday, accompanied by his wife. Mr. and Mrs. James have come here direct from a six-weeks' trip in the East, where they were royally entertained by art and literary friends. Among their hosts were Charles Dana Gibson of "Life," Howard Chandler Christy, Joseph Hergesheimer, D. Appleton and the Scribner brothers.

Prior to going East the James sold their magnificent place, "Sage-Pine Lodge," near Carson City, Nevada. They are now foot-loose and it is more than likely they will locate permanently in Carmel.

Two books of outstanding merit have been published by Mr. James. The first one was "Cowboys, North and South," and the second "The Drifting Cowboy."

After driving about Carmel and vicinity for two days as guests of Stephen A. Reynolds and wife, and becoming more and more impressed with its beauty and charm, and as a desirable place to live, they have leased the beautiful Beckwith place on Carmel Point, where sketches and text for a third book for the Scribners will be completed.

Manzanita Theatre— Motion pictures every night, 7:00 and 9:00 o'clock.

PROPERTY TRANSACTIONS

Carmel Pine Cone

Published Weekly by The Pine Cone Press Publishing Corporation
Subscription Rates: One year, $2.00; six months, $1.25; three months, 65 cents
Entered as second-class matter February 10, 1915, at the postoffice at Carmel, California, under Act of March 3, 1879.
W. L. OVERSTREET, Editor.

MUSSOLINI GOES TOO FAR

TAKING official cognizance of reports that members of Masonic bodies in some European countries are being persecuted, and even murdered, the Supreme Council of Scottish Rite Masonry, southern jurisdiction, has adopted resolutions calling on the American Government to protest to the foreign governments involved. Grand Commander John H. Cowles explains that the resolutions are especially aimed at Italy.

"So far as we know this is something without precedent in the annals of Masonry or the annals of diplomacy. Members of the order have been beaten, have been murdered under Mussolini. Lodge rooms have been raided and wrecked by Fascist mobs. Masons have been disfranchised by the dictatorship, which of course means giving a free hand to the mobsters. But what has the United States to do with the matter?

Theoretically no more than Cromwell had to do with the persecution of the Vaudois by the Duke of Savoy, no more than Gladstone had to do with the Bulgarian atrocities, no more than Great Britain had to do with Turkish treatment of Armenians, no more than we have to do with disordered conditions in Haiti. A protest on humanitarian grounds is always defensible.

"But practically our obligations are a bit more definite. Italy is our debtor. We have treated her most liberally, so liberally that both Brittain and France are aggrieved. Perhaps in view of this virtual partnership with Mussolini we have assumed a vertain vague responsibility. Perhaps we are not bound to be always a silent partner. This may well be in the minds of the leaders of our Masonic bodies in America. It is a consideration worthy of the most careful attention by our State Department."

GREAT IS THE RADIO

THE year 1925 ended with radiocasting of chimes in the London towers on the evening of December 31, that were heard all over the world. The program was worked out by General Harbord, and the words of the poet, "Ring out the old, ring in the new," were made literally true.

The tolling of Big Ben on the Houses of Parliament, London, was heard in all the civilized countries of the world. An official spokesman sent return greetings to England and to the listening world, the words being repeated by linguists in foreign languages.

"Ring in the valiant man and free, the larger heart the kindlier hand;
Ring out the darkness of the land, ring in the Christ that is to be."

Is it any wonder Americans have adopted the radio as household equipment along with the telephone and electric lights?

POPULAR CORPORATION FINANCING

TEN years ago the idea of having employes and customers owning a large percentage of the stock in leading public utility and industrial corporations, was scarcely thought of. Today such stock ownership is so well established that it is a standard method of financing.

A recent survey of a group of utility companies, typical of the electric light and power, gas, and telephone industries shows 47,654 shares sold to 7,746 customers and employes during 1925, as compared to 36,156 shores sold to 4,185 similar purchasers in 1924. Of the 47,654 shares, 38,849 were sold to customers, 5,660 to employes, and 3,145 to 1,765 unclassified persons.

In this county the Coast Valleys Gas and Electric Company has about 950 customer shareholders. These figures give a pretty good cross section of the type of citizens who are today financing the public utilities of the United States. "Real public ownership" by the people has been established, without involving our great public service companies in the meshes of politics, which results from so-called "public ownership" by city, state or federal government.

BURNING UP THE AIR-WAYS

By Rae Allison

Yes sir; Col. Foster and yours truly are engaged in a little race. So far, I've lost out every time, but some day, perhaps, the tide will turn.

You see, it's this way: Clair Foster has a penchant lately for smashing to smithereens at Radio Station 6HM all the world's records for distance transmission and reception of radio signals he can find lying around loose. So, when we hear of one of these record-smashing carousals going on at his shack, we hot-foot over for the latest "dope," with the intention of giving it to the rest of our citizenry.

But here's where we get the worst of it. While we're beating it back to the Pine Cone to hammer off the glad tidings on the self-jamming relic of several battles misnamed a typewriter, Carmel's radio station 6HM is still doing 'er stuff down among the pine trees. What happens? Nothing much; by the time we've got the results tabulated and about ready to announce the winner, it's stale stuff,—for 6HM has reached out another couple thousand miles.

On with the race, say we. Some of these days there will be no more records to break, and the only mark he'll have left to shoot at will be Mars. So we're not quittin' yet; our turn will come. When he starts in on Mars we're going to hang around and give him the rush—just ask him every five minutes or so why he doesn't do something.

Meanwhile, Carmel continues to hear from strange places, and to be heard in many parts of this small earth. During the 48 hours succeeding Sunday at midnight, Carmel held direct communication with every continent on the globe except one, and having a narrow escape from working that one when 6HM talked with station SGC, a Swedish ship just leaving Sweden for Brazil.

The stations "worked" during this period, in addition to SGC, were:
u6AFF, at Honolulu
oA3B, at Johannesburg, South Africa
s2SE, at Singapore
a2CG, at Cictoria, Australia
a5AH, at Adelaide, South Australia
NAJD, one of the U. S. warships in the Philippines
a5BG, at Adelaide, South Australia
z2GC, at New Zealand
NPM, U. S. Naval Station at Pearl Harbor, Hawaii
Bz2AF, at Rio Janeiro, Brazil, South America
x2BG, at Cachar, India

Station s2SE, at Singapore, is owned and operated by Col. Frederick Earle, Royal Engineers, British Army. It is the only station on the Malay Peninsula that has been in direct communication with the United States, and Col. Earle said that this was his first contact with America. He and 6HM were in communication for 2 hours and 40 minutes.

Mr. Benzie's station, x2BG, in India, and Col. Foster are busily engaged in trying to communicate the long way around the world, somewhat over 15,000 miles. That they will succeed is not at all unlikely; for radio signals do not travel far in complete daylight, while it is known that the short waves used at 6HM are audible at extraordinary distances during the dark hours or partial darkness.

Helena, in China, on December 13. At the time heard it was broad daylight all the way across the United States and the Atlantic. According to g6CJ, as

Station g6CJ in England reports that he heard 6HM while the Carmel station was working NGY, the USS well as all the scientists in the art of radio, 6HM must have been heard the dark way around the earth, some 19,000 miles. Col. Foster, here in Carmel, on January 11 heard distinctly station g2LZ in England under exactly similar circumstances.

So it seems that, after all the centuries of joking, the longest way 'round realy IS, under some conditions, the shortest way home.

NEW SUBSCRIBERS TOOK THEIR PLACES

The Pine Cone lost three pioneer subscribers last week—people who have taken the paper for eleven years. How we lost 'em is interesting. One lady wrote that having reached the age of ninety and being totally blind in one eye, she had to conserve the sight of the other eye by reading less. Another subscriber died, so we couldn't forward the paper, and a third was traveling and had no permanent address. Pretty hard luck for us, mates!

COWELL TURNS 'EM AWAY

Recently Henry Cowell, the internationally known pianist and composer, on his way to New York from Chicago, spent a week in Montreal, the guest of Professor and Mrs. Francis E. Lloyd. While there he gave a concert at McGill University conservatorium. The place was crowded and people were turned away. After that evening the entire week was a series of interviews, dinners and receptions for Mr. Cowell.

With Leo Linder, the violinist who played with him in Carmel last summer, Cowell is giving a concert in Aeolian Hall, New York, on February 2. In March he gives a series of concerts in several European capitals.

THE BUSINESS OUTLOOK

A Review of California Conditions from

WELLS FARGO BANK & UNION TRUST CO., SAN FRANCISCO

CALIFORNIA—Rainfall was below average in nearly all sections of California in December and the first ten days of January. Seasonal precipitation to date is considerably below normal and snow in the mountains is very light. Streams are low, at some places practically at the summer stages. The present deficiency in moisture, however, may be made up before the rainy season comes to an end. Several frosts were reported in December, but the injury to growing crops was less than usual.

Pastures were benefited in nearly all sections by the light rains of the preceding month and livestock generally was reported in excellent condition.

Total production of field and fruit crops in the state in 1925 was approximately 1,559,000 tons, or 18% greater than in 1924, according to the State of California Agricultural Statistician. In 1925 the total value of main crops was $405,193,000, compared with $388,976,000 in 1924 and $370,398,000 in 1923. Last year's crop out-turn was the greatest in terms of money since 1920, during which year the main crops were valued at $468,110,000.

SAN FRANCISCO—Leading hotels report a marked increase in business over last year. One large hotel reports trade running 20% above 1924 and another reports increases for every month of 1925 over the year previous. Bookings for spring and summer are heavier than usual and point to an excellent trade. Daily reservations are generally heavier than last year at this time.

RETAIL TRADE

Leading department stores, house-furnishing stores and concerns dealing in men's and women's ready-to-wear apparel almost uniformly report the holiday buying season just finished to have been the largest in history. Sales in December showed a marked increase over the same month in 1924. Stocks in many lines are low and clearance sales now being held will put the large retail establishments in excellent condition for spring business. There is yet apparent no tendency for merchants to buy for requirements of more than the near future. Collections are reported as fair with a tendency toward improvement.

WHOLESALE TRADE

Wholesalers state that December, 1925, is the first month since 1920 when there has been a broad and active demand for jewelry. The general public came into the market for jewelry on a scale exceeding that of any time since 1920. While there was less demand for more expensive jewelry, sales of popular and low-priced goods greatly increased.

Dealers selling musical instruments at wholesale report the biggest December in history, with January starting off most favorably. A definite trend toward the better types of merchandise is reflected in sales of more costly pianos and other high-priced goods. Some dealers state that they could have done a much greater business if they had been able to fill orders. Deliveries in some lines of merchandise are far behind and inventories are low. It is reported that the public shows a renewed interest in phonographs, due to mechanical improvements, resulting in a brisk trade. Jobbers of radio instruments report volume of trade for December last considerably in excess of that for the same month in 1924. While the unit volume of sales was slightly less during this period than last year, there has been a marked demand for higher-priced instruments, bringing dollar volume to a point exceeding all previous records. Inventories of retailers in this line are said to be considerably less than last year.

REAL ESTATE TRANSACTIONS

During 1925 there were 18,250 sales of San Francisco real estate recorded, totaling $182,500,000—the highest total ever reached and exceeding last year's sales by more than $26,000,000 approximately 17%.

BUILDING

San Francisco building permits for the month of December totalled $3,243,915, compared with $5,519,031 for the year before. Total for the year 1925 was $50,392,790, compared with $57,852,973 in 1924. In the San Francisco Bay area 13 municipalities issued permits during 1925 aggregating $115,999,088, which is 2% greater than the figure for the previous year. The city of Oakland issued permits in 1925 totaling $39,175,863, compared with $31,223,485 in 1925. With one exception, Oakland permits in December of $3,881,109 were the greatest in history, and compare with $3,277,514 in December, 1924. The total value of building permits issued by fifty-nine leading cities of California in the year just closed was $409,895,021, compared with $397,618,283 in 1924.

STOCK EXCHANGE TRANSACTIONS

Transactions in stocks on the San Francisco Stock and Bond Exchange in 1925 totaled 9,272,598 shares with a market value of $295,624,724, compared with 7,643,537 shares in 1924 with a market value of $121,114,671. Par value of bonds sold on the exchange in 1925 was $25,893,000, compared with $35,000,000 in 1924. Money rates ruled easy throughout the major portion of 1925, but advanced slightly toward end of the year.—WELLS FARGO BANK & UNION TRUST CO., SAN FRANCISCO.

Fudge-Making Finds Favor With Co-Eds

Fudge may be classed with pie as a typical American dish. It has a place in every young man's heart and every girl's category of accomplishments. Co-eds swear by fudge and "fudge shines" in sorority parlors are the very latest wrinkle in collegiate circles.

Meta H. Given.

There's a big wallop in a platter of fudge, the co-eds explain, because it's one of the greatest sources of energy, containing both milk, the "perfect food," and sugar.

If you've any doubt of the place fudge occupies in the young male heart, try these recipes on him and hear his own answer. Each of the appended dishes was prepared by Miss Meta Given, doing research work in the home economics department of the University of Chicago, and they are the result of much experimentation.

Chocolate Fudge.

2 cups sugar
⅔ cup evaporated milk
½ cup water
1 tbsp. corn sirup
2 squares chocolate
Few grains of salt
1 tbsp. butter
½ tsp. vanilla

Shave the chocolate so that it will melt more easily. Add the sugar, salt, milk, water and corn sirup. Cook, stirring until chocolate and sugar are melted, and then only occasionally to prevent burning, until the soft ball stage is reached, or a temperature of 234 degrees Fahrenheit. Remove from fire and add the butter. Cool until almost lukewarm, 110 degrees, add flavoring and beat vigorously until when a little is dropped from the spoon it will hold its shape. Pour into oiled tins and mark in squares.

Cocoanut Candy.

1½ cup sugar
¼ cup evaporated milk
⅓ cup water
1 tsp. butter
1-3 cup shredded cocoanut
½ tsp. vanilla

Put butter into granite saucepan; when melted, add sugar, milk and water, and stir until sugar is dissolved. Heat to boiling, and cook to the soft ball stage. Remove from fire, add cocoanut and vanilla, cool to 110 degrees Fahrenheit and beat until creamy and mixture begins to sugar slightly around edge of pan. Pour into buttered pan and when cool mark in squares.

Penoche.

2 cups brown sugar
maple sugar
⅔ cup evaporated milk
⅓ cup water
1 tbsp. butter
1 tsp. vanilla
2 cups chopped nuts

Boil sugar, milk and water to the soft ball stage. Remove from the fire; add butter, flavoring and nuts. Cool to 110 degrees Fahrenheit, then beat until creamy and thickened; pour into a greased tin and when firm cut.

A reception will be tendered Dr. Noel Porter, Archdeacon of California, at the Rectory of all Saints Church (Episcopal) next Saturday, February 6th, from 3 to 5 p. m. All parishoners and their friends are cordially invited.

M. DeNeale Morgan is preparing an exhibit of her work for the City of Paris gallery in San Francisco, which opens on March 1.

OFFICE OF THE CLERK, CITY OF CARMEL - BY - THE - SEA, COUNTY OF MONTEREY, STATE OF CALIFORNIA:

I, Saidee Van Brower, Clerk of the City of Carmel-by-the-Sea, a Municipal Corporation duly organized and existing under the laws of the State of California, do hereby certify that the foregoing is a full, true and correct copy of the delinquent tax list of the City of Carmel-by-the-Sea on the Assessment Roll of 1925 for the fiscal year 1925.

IN WITNESS WHEREOF, I have hereunto set my hand as such Clerk and the official seal of said city, this 30th day of January, A. D. 1926.

(SEAL)

SAIDEE VAN BROWER,
Clerk of the City of Carmel-by-the-Sea.

OOFICE OF THE CITY MARSHAL AND EX-OFFICIO TAX COLLECTOR OF THE CITY OF CARMEL-BY-THE-SEA.

NOTICE IS HEREBY GIVEN to all the delinquent tax payers and property owners mentioned and set forth and described in the foregoing tax list on the Assessment Roll of 1925 for the fiscal year 1925, in and for the City of Carmel-by-the-Sea, a Municipal Corporation duly organized and existing under the laws of the State of California, that unless the taxes delinquent, together with the costs and percentages due, as in the above delinquent list set forth, are paid on or prior to Monday, the 15th day of February, A. D. 1926, at ten (10:00) o'clock in the forenoon of said day, the real property upon which said taxes are a lien will be sold to the City of Carmel-by-the-Sea by operation of law and by my declaration for the payment of such taxes, percentages and costs.

IN WITNESS WHEREOF, I have hereunto set my hand as such Marshal and Ex-Officio Tax Collector this 30th day of January, A. D. 1926.

AUG. ENGLUND,
Marshal and Ex-Officio Tax Collector of the City of Carmel-by-the-Sea.
Date of first publication, Jan. 30, 1926.
Date of second publication, Feb. 6, 1926.
Date of third publication, Feb. 13, 1926.

DOG LICENSE DUE

NOTICE IS HEREBY GIVEN that the Dog License for 1926 is now due and payable. A. K. Miller, collector, will be at the City Hall from 1 to 2 p.m., daily for 30 days.

If license is not paid in thirty days, dogs will be impounded.

COAST VALLEYS SERVICE — Byllesby Engineering and Management Corporation

A PUBLIC UTILITY PLATFORM

Nearly twenty-five years ago the late Henry Marison Byllesby insisted that the public utility companies entrusted to the supervision of himself and associates should be conducted in accordance with the following principles, which were part of his instructions to managers:

"Deal honestly, fairly and lawfully with all concerned. Make your business and personal conduct above reproach.

"Your business will be most profitable if you charge the lowest possible rates and develop the largest volume of service.

"Try to set a high business standard. Keep the cards on the table. We want no secret deals, no favoritism, no corruption. Sooner or later the people will understand. This course may cause you harder work for a time, but eventually it will make it easier.

"Never forget that your company is a public servant that wants no dollar that it does not fairly earn.

"Take the people into your confidence. Give them the facts.

"Treat your customers as human beings, realizing that mutual good faith and tolerance form the basis for successful commerce between man and man.

"Participate in the public and semi-public welfare activities of your city.

"Maintain the old-fashioned virtues. They will always win in the long run. We are back of you to the last dollar as long as you do your honest best, but we will not forgive any act that is not clean and honorable."

Pine Needles

The February meeting of St. Anne's Guild will be held at the Rectory next Tuesday, at 3 o'clock.

Mrs. Josephine Loomis left for Burlingame last Tuesday to visit her daughter, Mrs. W. L. Miller.

Last Monday, Mrs. Esther G. Teare and her daughter, Mrs. Bruce Monohan, sailed from San Francisco for Tahiti.

Mrs. Maude I. Hogle is leaving today for a trip of a month or more in southern California. Mrs. Kate Potter, her cousin, of Oakland, will accompany her.

Former newspaper man, Nelson Valjean is on the Orpheum circuit. Together with an old college friend he is doing an up-to-date radio skit. Nelson did local news in Carmel, Monterey and Watsonville.

The concrete on the new Ocean avenue extension is all laid. On Tuesday morning the turn was made into Carpenter street. The entire roadway will probably be open for traffic on or about March 1.

Pictures on view at the Pasadena Art Institute include "Sunshine and Flax" by Frederick Zimmerman; "Up the Valley," by Miss Frances Clark; and "The Mountain Stream," by Ada Belle Champlin.

Mrs. Van Wyck Brooks and her son, Kenyon, arrived from New York several days ago. They are visiting Mrs. Brooks' mother, Mrs. Eleanor Stimson. When they return east, Mrs. Stimson plans to accompany them.

Here last week from San Francisco were Mrs. Shuffleton and Mrs. Marcus Kelsey. They were guests of the Hobart P. Glassells. In the near future, Mrs. Shuffleton expects to establish a nursing home here.

The local house-numbering ordinance, which is an enabling act only, goes into effect on February 18. A resolution as to details will shortly be adopted, after which the Superintendent of Streets will be in a position

Plans for a formal opening of the new Hotel Del Monte have been announced by Carl Stanley, manager of the hotel. The opening will follow completion of the main section of the hotel, and is scheduled for Saturday, April 10.

J. Sherman Woolf, one of the best known attorneys on the Monterey Peninsula, passed away at his home in Monterey on Thursday morning. He leaves a wife and four-year-old son Funeral services will be held at 10 o'clock tomorrow morning from the Monterey Elk Hall.

Mrs. Ray Cooper Gale and Miss Elizabeth Storm of Hollywood were the guests of honor at a social tea given by Mrs. Ralph Davison Miller last Tuesday afternoon. Among the guests were: Mrs. Julian Phillip, Mrs. DeWitt Appleton, Jr., Mrs. Harold Thorup, Mrs. Robert Stanton, Mrs. Grace Wallace, Mrs. Francis Murphy, Mrs. Sarah Demming, Mrs. Maude Arndt, and Mrs. H. B. Tomkin. Mrs. Frederick Crothers, daughter of Mrs. Miller, assisted in receiving the guests.

Register at the Pine Cone Office

The Leslie Doultons have returned from a sojourn at Santa Barbara, where they formerly lived.

Miss Amy Doolittle, well known here and in Pasadena, is in Paris. She will return to Carmel next summer.

Stockholders of the Lincoln Oil Co. held a meeting in the office of the Carmel Realty Co. on Wednesday evening.

Gouverneur Morris, Peninsula author and his wife, who have been abroad for some time, will be home this week.

Three holidays next month. Saturday, the 12th, Lincoln's birthday; Monday, 14th, St. Valentine's day; Monday 22nd, Washington's birthday.

Mrs. J. L. Fulton of the "Anchorage" is spending the winter in Chicago with her granddaughter, Virginia Tooker, who is attending the Art Institute.

Mr. and Mrs. J. B. Adams have motored to Monrovia for a three weeks' stay with friends. Their daughter, Mrs. C. L. Voss of St. Louis, accompanied them.

The Carmel Garage, authorized Lincoln, Ford and Fordson dealers, now has as sales manager F. V. "Ford" Smith. Smith knows his berries in anything concerning Ford products.

Professor F. E. Lloyd and Professor Ulehla have written up the results of their joint summer work here, which had to do with experiments with the "Palm" seaweed.

Mr. aind Mrs. Louis J. Stellman, both writers and artists, were here from San Francisco last week. They were guests of Mr. and Mrs. C. S. Gilman, also writers.

What kind of work do you wish to do? Let us find it for you. Register at Carmel Service Bureau, So. side of Ocean avenue, between San Carlos and Dolores. Phones: 182 or 123J.—Adv.
